YELLALING

ASSOCIATE ANALYST | AUTOMATION TESTING | QUALITY ENGINEERING

Bidar, Karnataka | +91 6362678482 | yellalingkalyane@gmail.com | GitHub: github.com/yellaling2204 | LinkedIn: linkedin.com/in/yellaling-kalyane

PROFESSIONAL SUMMARY

Computer Science Engineer and 2026 B.Tech graduate from IIIT Dharwad with hands-on experience in software development, API validation, debugging, and test automation. Proficient in Python, Java, SQL, REST APIs, Postman, Git, and modern web technologies, with practical exposure to functional, regression, smoke, and sanity testing. Built an LLM-assisted Python test automation framework that converts natural-language requirements into executable functional test cases and reusable validation workflows. Strong foundation in SDLC, STLC, Agile/Scrum, OOP, DBMS, and problem solving; seeking an entry-level Quality Engineering role at Deloitte.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, TypeScript, SQL

Testing & QA: Test Automation, Functional Testing, API Testing, Regression Testing, Smoke Testing, Sanity Testing, UAT, Bug Reporting, Debugging, Test Scenarios & Test Cases

Automation / API: Python Automation, LLM-Assisted Test Automation, BDD-Style Testing, REST APIs, Postman, API Validation

Engineering: SDLC, STLC, Agile/Scrum, Git, GitHub, Code Review, CI/CD Fundamentals, Jenkins

Backend & Data: Node.js, Express.js, RESTful API Design, MongoDB, MySQL, Data Modeling, Indexing, Query Optimization

Frontend / Tools: React.js, HTML5, CSS3, Vite, Tailwind CSS, Docker, Docker Compose, Linux/Ubuntu, VS Code

PROFESSIONAL EXPERIENCE

Web Development Intern — SystemTron | Dec 2024 – Jan 2025

- Developed production-style MERN features across frontend and backend layers, translating functional requirements into maintainable software.
- Built React components and Node.js/Express REST endpoints with authentication, validation, API integration, debugging, testing, and defect resolution.
- Performed API validation and functional checks for application workflows; investigated issues and verified fixes before feature delivery.
- Used Git and code-review practices while collaborating with a small development team on integration and delivery.

AUTOMATION & SOFTWARE ENGINEERING PROJECTS

LLM-Assisted Test Automation Framework | Python | LLMs | BDD-Style Testing

- Built a Python framework that converts natural-language requirements into executable functional test cases and reusable validation workflows.
- Structured automated validation around requirements and expected behavior to reduce manual test-case creation and improve consistency.

Secure Real-Time Messaging Platform | MERN | REST APIs | Socket.IO | JWT | MongoDB

- Developed secure REST APIs and real-time messaging workflows with authentication, authorization, persistent storage, and protected channels.
- Performed API validation, debugging, and end-to-end functional checks for authentication and messaging scenarios.

TalentFlow — Mini Hiring Platform | React | TypeScript | Vite | Tailwind

- Built job-posting, candidate-pipeline, and assessment workflows with structured application data flows and Kanban management.
- Implemented optimistic updates with rollback handling and tested failure scenarios to improve application resilience.

Computer Vision Human Interaction System | Python | OpenCV | MediaPipe

- Developed a real-time gesture-controlled virtual mouse and tested gesture recognition across multiple operating conditions.
- Debugged recognition and event-handling logic to improve reliable interaction behavior.

EDUCATION

Indian Institute of Information Technology (IIIT) Dharwad — B.Tech, Computer Science & Engineering | May 2026
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering

ENGINEERING & DELIVERY

Containerized applications using Docker/Docker Compose and built Jenkins CI/CD workflows for automated builds and Docker image creation. Comfortable with Git-based collaboration, debugging, APIs, testing, and iterative Agile-style development.
